

DEVELOP. ENGAGE. **INSPIRE.**

Do you want to provide your summer college-age interns with experience beyond the workplace; inspiring connection with their work, each other *and* the region?

The Summer on Sandusky Bay Internship Experience offers an opportunity to connect your interns with professional development, peer-to-peer and social experiences, and an exploration of the place you and your business call home.

The experience is a 6-week program where participants will spend one day per week with Greater Sandusky Partnership to help them build connections, grow their confidence and envision a future in the region. Cost per intern is \$175 – includes all meals and activities.
